

Driver CPC C5. Mechanical Handling Equipment Training

Who is it for?

All drivers of HGV and PCV vehicles since 2014 / 2013 require a (Driver Qualification Card) DQC to be able to drive professionally. Our CPC courses are designed to ensure all drivers keep their DQC card legal.

Whilst many companies and Transport Manager will be tasked with ensuring that all drivers have a current DQC, we honestly believe it to be a joint responsibility.

Course Content

Health and Safety at Work
Vehicle weights, unladen and gross
Calculating axle weights
Pre shift walk around and physical checks
Practical training for lifting and travelling
Practical assessment on driving and use of controls

Enhanced training

This course follows the syllabuses of either ALLMI, ITSSAR or RTITB courses. This means that anyone can use this course to gain a 'in house' MHE certificate as well as CPC driver hours. Speak to us for more details.

Location

This course generally delivered on site with the use of the customers own equipment, a suitable training area and loading / unloading facilities.

HGV or PCV?

This course has been approved for HGV drivers only.

Course Duration

This course will count toward 7 hours of your Driver CPC training.

Candidate Requirements

Candidates must be willing to participate within the training session and there are physical activities in this course.

Please advise of any attendees who may have learning difficulties.
